

**UPDATED
for June**

CCSD 46
Summer
Academy

Monday – Thursday
June 11 – July 3
at Frederick School

Summer Academy 2018
Grayslake School District 46

Grades – Pre-K through current 8th grade.

Dates - Classes will be held **Monday, June 11th – Tuesday, July 3rd** with no school on Fridays.

Times - 1st period 8:15-9:25, 2nd period 9:30-10:40, 3rd period 10:45-11:55

Supervision – Students may not enter Frederick until 8:10 am, as there is no supervision offered in the morning. If a student takes a 1st period class and a 3rd period class, there is no supervision for 2nd period. *Students need to be picked up on time after their class is dismissed.*

Eligibility - The program is open to all District 46 students who could benefit from remedial courses or who wish to participate in enrichment courses.

Transportation - Transportation is the responsibility of the parent(s). Bus service is not available for the Summer Academy.

Attendance Policy - Consistent attendance is recommended throughout the summer academy program. Teachers will plan activities and prepare materials based on enrollment. Attendance will be taken just as during the regular school year.

Course Cancellation - District 46 reserves the right to cancel any course that does not meet minimum enrollment requirements.

Confirmation - Students and parents will receive course confirmation the first week of June.

Registration - Early registration is encouraged. Classes will be filled in the order in which the registrations are received. Registrations can be mailed or delivered through your child's campus to Prairieview School, 103 E. Belvidere Rd., Hainesville, IL 60030 c/o Stephanie Timm. No phone registrations will be accepted.

A student's **current** grade level is used to register for Summer Academy.

Tuition - There is a tuition fee of \$90.00 for each class.

Refunds- There will be no refunds given after June 14, 2018.

Information- For additional information, please contact Stephanie Timm (tim.stephanie@d46.org) or Amanda Kurzeja (kurzeja.amanda@d46.org).

Second Helping Classes

Second Helping Reading and Math: Students will receive extra support in the areas of reading and math. These classes are beneficial to students that need to maintain skills taught during the regular school year.

Enrichment Classes

Enrichment Classes: Students can choose from a variety of subject areas to enhance their love of learning. Subjects include art, technology, physical activity, games and more!

8:15-9:25

Pre-K: Kindergarten Readiness

Wilson

Kindergarten readiness class is designed for children who will be entering Kindergarten in the fall. We will be using many fun activities to strengthen and develop basic skills such as number sense, letter and sound recognition, and fine motor control. Come join the fun and prepare for the best days of your life.

K: Who Is Ready for 1st Grade Math?

Cunningham

Students will play games and have fun practicing math skills taught in kindergarten to help prepare them for success in 1st grade. Counting, counting on, number sense, use of ten frames, addition and subtraction skills (and more!) will be used to solidify math skills.

1-2: Second Helping Reading

Tabassum

Students will continue to develop and improve their basic reading, comprehension, and writing skills.

1-3: Legos Goes to the Movies

Schwarzbach

Come build Lego movie sets and write movie scripts about your set! Learn the basics on screenplay and how to write a story – all while playing and building with Legos!

3-4: Second Helping Reading

Tarasiuk

Students will continue to develop and improve their basic reading, comprehension, and writing skills.

4-5: Wizarding World of Harry Potter 1

Greissinger

Do you love all things Harry Potter? Then this class is for you! Besides reading from some of your favorite books and learning about the Wizard world, we will sort ourselves into houses, create our own wands, try potions, study herbology and find out what our patronus looks like! Test your Harry Potter knowledge in a game of trivia! Our themes will come from the first two books, Sorcerers Stone and Chamber of Secrets.

5-8: Sculpture World**Crane**

Students will discover a variety of cool ways to create three-dimensional sculptures. Many different types of art materials – such as wood, plaster, wire, cardboard, tile, plastic and led lights may be used to achieve different 3D artwork!

6-8: Lots of Bots**Innes**

Students will learn to use computer programming and code using various online resources and lots of bots. Programmers will start with learning, or reviewing, the programming basics during week one. Students will continue to develop and use these coding skills to program Code and Go Mice, BeeBots, Lego Robots, Dash and Dot, Spheros, OzoBot Robots and more! We will focus on a different aspect of coding each week, building on the knowledge gained in the prior week.

****This class is possible because of equipment purchased with a Foundation46 Impact Grant.****

9:30-10:40 Enrichment Classes

Pre-K: Let's Count and Play with Numbers!**Cunningham**

Who is ready for kindergarten? Students will have fun learning to identify numbers, colors, and shapes. We will also practice counting and making patterns. Students will use building blocks, unifix cubes and other hands on items to help build number sense.

K-2: Lots of Bots**Innes**

Students will learn to use computer programming and code using various online resources and lots of bots. Programmers will start with learning, or reviewing, the programming basics during week one. Students will continue to develop and use these coding skills to program Code and Go Mice, BeeBots, Lego Robots, Dash and Dot, Spheros, OzoBot Robots and more! We will focus on a different aspect of coding each week, building on the knowledge gained in the prior week.

****This class is possible because of equipment purchased with a Foundation46 Impact Grant.****

1-2: Young Scientists**Tabassum**

Enroll your kiddos to be young scientists and let them have the chance to do interesting experiments and have some fun at the same time! We will work with the scientific method as well – observations, questioning, hypotheses and experiments!

1-2: Math Games**Wilson**

Counting, place value, math facts (subtraction and addition) and MORE! Students will play a variety of fun and challenging math games! Whether students need extra practice or enjoy a good challenge, this class is a great way to maintain math skills learned over a long summer break!

3-4: Second Helping Math**Fitzgerald**

Students will continue to develop and improve their basic math skills through the use of manipulatives, games, and activities.

3-5: Better Balance With Circus!

Richard

Sample the exciting world of circus this summer. Learn skills in equipment, such as stilts, unicycle, human pyramids, walking globe, slackline and rolla bolla. Circus work is taught in a safe progression with spotting and technical instruction by a circus athlete/performer/school owner.

4-7: Wizarding World of Harry Potter 2

Greissinger

Can't get enough of the wizard world? Or you took "1" last summer? We will continue on with all new projects, trivia, and themes. Themes will come for Prisoner of Azkaban and Goblet of Fire.

4-8: Creative Faces and Places

Crane

Students will explore creative ways to draw different faces and places while using a variety of different methods and drawing materials.

10:45-11:55 Enrichment Classes

K: 1st Grade Readiness

Wilson

This class is designed for incoming first graders. The students will practice beginning reading strategies, writing, and math skills that are necessary for first grade. Come make new friends and get ready for 1st grade!

1-2: Stories & Circus: Building Skills in Physical Literacy and Storytelling

Richard

Sample the exciting world of circus this summer using the powerful combination of narratives and movement. Students will learn circus skills, use teamwork, develop performance techniques, and explore circus stories. Circus work is taught in safe progression, with spotting and technical instruction by a circus athlete/ performer/ circus school owner.

2-4: Around the World in 14 Days

Cunningham

Students will travel to a new destination each day. The students will journal what they learn along the way as they explore the culture and visit famous sites. Our journey will also include an itinerary, brochures, maps and adventurous excursions for each area of the world!

3-5: Lots of Bots

Innes

Students will learn to use computer programming and code using various online resources and lots of bots. Programmers will start with learning, or reviewing, the programming basics during week one. Students will continue to develop and use these coding skills to program Code and Go Mice, BeeBots, Lego Robots, Dash and Dot, Spheros, OzoBot Robots and more! We will focus on a different aspect of coding each week, building on the knowledge gained in the prior week.

****This class is possible because of equipment purchased with a Foundation46 Impact Grant.****

3-8: Everything Clay

Crane

Students will create ceramic art pieces that can be used in a variety of different ways! Examples: piggy banks, phone holder, jewelry box, appetizer dishes, candle holders, etc.

5-6: Second Helping Math

Fitzgerald

Students will continue to develop and improve their basic math skills through the use of manipulatives, games, and activities.

11:55-3:00

K-4 Activity Camp

Participating students will take part in a variety of fun athletic activities that will build not only your child's athletic skills, but also his/her sportsmanship skills as well. Children in activity camp that are enrolled in morning classes should bring a sack lunch. **THIS CLASS HAS A COST OF \$210.**

5-8 Activity Camp
